

# Year 4 'Making the news' Summer Term 1 Home Learning Project

Please see below for details of the home learning projects for this half term! Please complete one of the below projects and bring your learning in on the week beginning **Monday 21st May 2018**. We will then share each other's projects and see what we have all been learning!

## ART

Create a collage using newspaper/magazines; you can create any picture you like. Maybe it could be someone or something meaningful to you! Be ready to talk about your collage and why you chose it.

## D & T

Design and brand your own newspaper/magazine. Think about your target audience, the content, images and the design and layout. Be as creative and imaginative as you like!

## Creative writing

Write your own interview that will be published in a newspaper. For example, you can interview your favourite actor/actresses, sports personality or author. Think carefully about what questions you would want to ask them and what you think they would reply. Maybe complete some research to help you!

## PE

Can you create a fitness plan for someone who doesn't exercise regular and has an unhealthy diet? Think of different exercises that you can incorporate to strengthen different muscles. Perhaps it could include a range of yoga, gym, running, sport and resting activities. Think about what makes a balanced diet (and lifestyle).

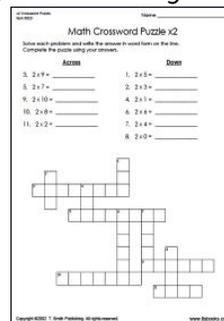

Write your fitness plan as though it will be going in a fitness magazine.

## A maths crossword

Can you create your very own 'maths' crossword that would be published in a weekly newspaper?

It can contain maths questions like  $9 \times 9 = ?$  don't forget the answers have to be in words not number form so the answer to this will be eighty one. Perhaps you could include your own word problems or link to shape and measure i.e. How many sides does an octagon have OR How many degrees are in a right angle?

## Information

It is up to you how you choose to complete your project, so feel free to take any of the 5 options in whatever direction you want to. If you are not sure or would like some advice, please come and speak to either Mrs Hinds or Miss Loasby.

Take your time with your project and plan what you want to have completed each week so that you don't leave everything to the last minute!

You can also help us by reading with your child daily and helping them to learn their spellings and times tables each week

Finally, have fun and enjoy your learning which we look forward to seeing on Monday 21st May 2018.

Mrs Hinds & Miss Loasby
