

Year 3

'Animals of the World'

Autumn Term 2 Home Learning Project

Please see below for details of the home learning projects for this half term! Please complete one of the below projects and bring your learning in on the week beginning **Monday 17th December 2018**. We will then share each other's projects and see what we have all been learning!

ART

Create an animal collage using newspaper/magazines; you can choose any animal you like. Be ready to talk about your collage and why you chose it especially any interesting facts you find out about that animal.

D & T

Can you design and make your very own Christmas stocking? Use your imagination (have you got any clothes you could use for the material?) Be prepared to explain to the class how you made it.

Creative writing

Can you make your own animal fact book? Use the internet to find out lot of facts about different animals from all over the world. Use images, headings and sub headings for the layout and presentation of your work. Bring to school and leave in the classroom so your classmates can read and learn about all of these animals.

Geography

Using a map of the world can you label or stick down images of animals and where they come from? Use books and the internet to research the information you will need. If you want a challenge you could try to draw your own map of the world. Don't forget to label the countries.

A maths game

Can you create a maths lesson which helps children learn their times tables? Think about the resources you would need, possibly times tables cards or a song to help children learn them.

Bring your lesson into class and we will use it during a maths lesson.

3 Times Table		
0	x	3 = 0
1	x	3 = 3
2	x	3 = 6
3	x	3 = 9
4	x	3 = 12
5	x	3 = 15
6	x	3 = 18
7	x	3 = 21
8	x	3 = 24
9	x	3 = 27
10	x	3 = 30
11	x	3 = 33
12	x	3 = 36

Information

It is up to you how you choose to complete your project, so feel free to take any of the 5 options in whatever direction you want to. If you are not sure or would like some advice, please come and speak to either Mrs Hinds, Mrs Sellick and Ms Kennedy..

You can also help us by reading with your child daily and helping them to learn their spellings and times tables each week. By now they should all know their 2, 5 and 10 x tables. We have started to look at 4, 8 and 3's.

Finally, have fun and enjoy your learning which we look forward to seeing on Monday 17th December 2018.

Mrs Hinds, Mrs Sellick and Ms Kennedy.
