

# Year 6 Summer 2 2023

## Computing

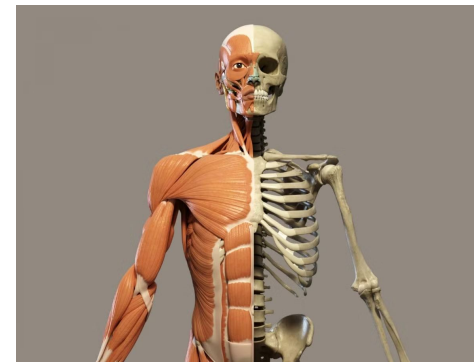

### Creating 3D model through media

In our unit this term we will be looking at software that allows us to create 3D imagery and models, we will then combine our previous coding learning to create moving 3D imagery.

## Music

This term in music we will continue to compose our own pieces of music.

## Science

### Body Health

This term in Science we will be looking at body health. What we eat, how we look after our bodies and how we can look after our own and others mental health.

## DT

### Electrical Systems

Throughout this unit, the children will explore a variety of different electrical systems and equipment that will allow them to create their own fully working electrical devices

## Religious Education

### Islam

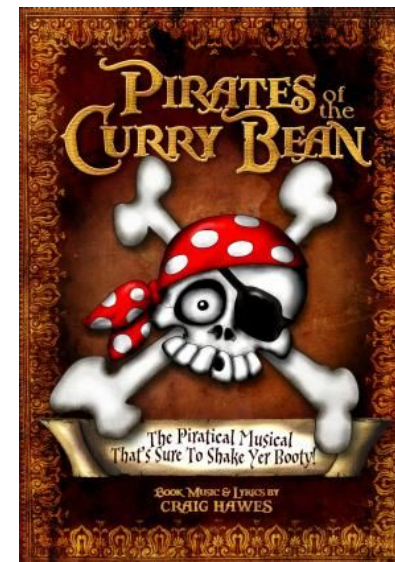

So far this year we have studied, Christianity, Judaism, Hinduism. This term we look at what life is like for a Muslim in Britain and how they follow the 5 Pillars of Islam

## Maths

This term we will be looking at angles and shape as well as problem solving and working systematically.

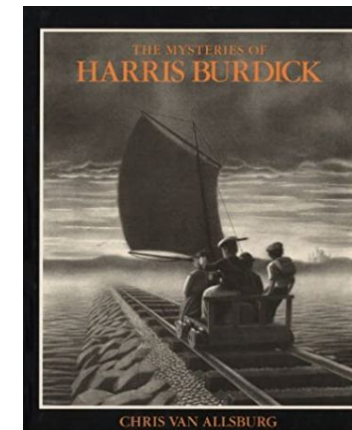

## PE

This term in PE we will begin our preparation for sports day by developing our athletic skills.

## French

This term in French we will be looking developing our vocabulary around key locations.

## English

This term we will be creating our own dark tale using imagery and language to create a scene for our audience.

## Year 6 Performance

This half term we will be working hard rehearsing our end of year performance 'Pirates of the Curry Bean'. I know the children will be so excited to see you come and watch and give your support.
