

## Physical Development

We are developing our fine motors skills by using resources which develop our th muscles in our hands and through learning to form our letters using the RWi programme.

Our PE lessons with Mr Blackler and Mr Vasey will focus on exploring different ways of moving and incorporating these into games.

## Understanding the World

We will be exploring our families and the people we live with and talking about similarities and differences between families.

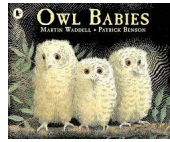

We will think about events that have happened in the past and things that are still to come.

We are going to celebrate Harvest time together and talk about the things we notice as the seasons change.

We would like you to send in pictures of your family for us to share and talk about together.

## Literacy

The first story we are reading is Owl Babies. We are learning to retell the story from our story map and write some of the sounds we can hear as we tell the story.

**Vocabulary:** hunting, nocturnal, trunk, brave, branch, twig

We will then read the story of 'The Little Red Hen' and tell the story using the sounds we know and words we can sound out using our phonic knowledge.

**Vocabulary:** wheat, flour, grain, mill, Autumn

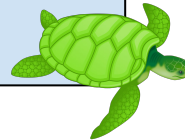

## Communication and Language

We will be learning lots of new vocabulary and using this when we are playing.

## Reception Our Learning Journey Autumn 1

**Read Write Inc-** The children have daily RWi lessons where they learn a new sound each day. Later in the half term they will bring home a RWi book bag book to read with you at home.

## Expressive Art and Design

As well as exploring colour mixing and drawing portraits, we will start to explore different ways that we can join our models together.

In our music sessions with Mrs Devonport will explore how music makes us feel.

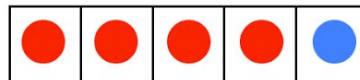

## Personal, Social and Emotional

We will be focusing on developing children's understanding of the class and school rules and routines. We will be supporting children to follow these more independently.

## Mathematics

We will be looking at ways to represent and manipulate numbers to 5 and exploring counting groups of objects up to 5. Our focus will be on recognising different representations of numbers and using a five frame to help us when we count.

## Challenge me at home to...

- Talk about who is in my family and their relationship to me.
- Notice signs of Autumn when we are out and about
- Learn to zip up my coat independently
